

Ear Piercing at Cary/Apex/Fuquay-Varina Pediatrics

Consent

Your child will be having her ears pierced today! This is considered a “surgical” procedure and requires your consent to be performed. The earrings used are sterile and made of gold to reduce the risk of infection and allergic reaction. Possible risks include:

Bleeding at the piercing site
Pain and infection

Please notify your child’s doctor if you have any concerns regarding this procedure or if your child has any health conditions like bleeding, difficulty fighting infections or keloid formation.

By signing below, you agree to allow the provider to place earrings in your child’s ears.
